

LED G4 1.5W Dimmable bulb

Sera G4 LED Dimmable 1.5W bulbs (12V) are the perfect replacement for traditional halogen bulbs and they are a similar size. They are approximately equivalent to a 20W traditional halogen bulb. Almost identical size to a traditional halogen at 9mm x 26mm (total length including pins 35mm), which is unlike many others on the market. The bulbs are available in Warm White (3000K) and Cool White (6000K).
