

Extra Long Run COB Strip

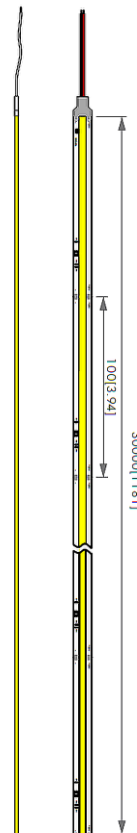

ST-00015

Extra Long Run COB Strip delivers smooth, dot-free linear illumination with exceptional uniformity over extended 30 m runs. Operating at 48V DC, it minimises voltage drop while maintaining consistent brightness across the full length. The ultra-thin, highly flexible construction allows tight bending for seamless integration into architectural details. Featuring a high-quality copper PCB, CRI up to CRI90, multiple CCT options, and IP20 to IP67 variants, it is ideal for premium indirect and concealed lighting applications.
